An important component of these courses are life and success skills such as knowing oneself, critical and creative thinking, problem solving, setting and achieving goals, relating to others, time management, and coping with stress. Program Length

The BBA degree program is a 120-credit, four-year degree program. Each course is three credits and a total of 40 courses are required for graduation. Classes are offered every quarter, year round. Students who wish to take a break are recommended to take this during the designated term break (Term 1: January-March)

I came to the Acsenda School of Management having already completed a degree from my home country. My desire was to enhance my previous education and transform it into a career that will help me to succeed in Canada. From the very beginning, I was surprised by the personal approach taken to every student, the simplicity of the enrolment process and the affordable tuition fees. Also, I had most of my credits from my previous university transferred to Acsenda, which allows me to complete a business degree in only two years. I'm very thankful to Acsenda for understanding my needs, giving me the confidence to reach my goals and for making so many opportunities available to me. I would recommend that prospective students think about an education with the Acsenda School of Management, no matter how unique or specific their educational goals are.

During my studies at Acsenda School of Management I was the President of the International Business Club. My involvement not only helped start my career but gave me much more than just a classroom experience. As a member of the International Business Club I helped arrange a guest lecture by Export Ventures Group Inc. who upon graduation offered me a position as the Marketing and Social Media Coordinator. I am grateful for the education I received at Acsenda and would encourage potential students to consider a business degree with an international Focus.
